## U.S. Capitalism in Crisis and Social Market Alternatives

### A Workshop with Bill Barclay

*“Know thy enemy, know thyself. A hundred battles, a hundred victories.”*

So wrote Sun Tzu in the Art of War. A political economy in crisis is both a challenge and an opportunity.

**Join our interactive workshop** that examines the explosive growth of inequality in the U.S. and the mechanisms by which the financial sector translated inequality into a debt-driven housing bubble and collapse.

***What can and must be done to create a more equal and just society?***

***Come and learn how to present the socialist perspective on the most critically important economic topic of this year.***
